

Introduction

My name is _____ and I work for the Health Department. We're offering a gift card if you can give me 20 minutes to talk about the STD Screening Program run by the Health Department.

Do you have time to talk to me right now?

☐ Yes ☐ No ➔ When would be a good time? _____

As I said, we're interested in the getting some information for the STD Screening Program. This is the program where the Health Department comes to your school, shows you a video, and gives you a urine test if you want it.

I am going to ask you a few questions. Be as open and honest as you feel comfortable; what you say here is completely confidential and we will never use your name in our results. At the end of our conversation, I'll get your correct address so that we can mail you a gift card.

A: Experiences and general knowledge about sexual transmitted diseases or available venues

First, I wanted to ask you some questions about STDs.

1. What is an STD?

a. How do you get one?

2. What can you tell me about chlamydia and gonorrhea?

3. Where do you get your information about STDs? Do you get it from...(Select all that apply.)?

- ☐ School
- ☐ Family
- ☐ Friends
- ☐ Internet

- ☐ Television
- ☐ Health Clinics/Doctors Offices
- ☐ Other (please specify): _____

B. STD Screening

1. Who should get tested for STDs?

2. Why do you think some people your age don't get tested for STDs?
 - a. What are some things that would make it easier?

3. How often do you think someone should get tested?

4. Where can someone get tested for STDs?
 - a. To make it easier, where should STD testing be offered?

C. HS STD Screening Program

Now let's talk a little bit about the testing that the Health Department did here last school year.

1. If you attended the presentation, what information do you remember? ☐ Didn't Attend]

2. What information do you think the Health Department should include in the presentation?

3. Is there anything else you would change about the presentation?

4. 50% of students DON'T get tested after watching the presentation. Why do you think that is?

D. STD Protective Behaviors

1. What are some of the ways people can protect themselves from STDs?
2. What makes it hard for people your age to protect themselves from STDs?
 - a. Is there anything that would make it easier for people your age to protect themselves against STDs?
3. Where do students in your school go to get condoms?
